

P1210-2004/Cor 1

Submitter Email: ankong@comcast.net

Type of Project: Corrigendum to IEEE Standard 1210-2004

PAR Request Date: 29-Aug-2012

PAR Approval Date: 02-Nov-2012

PAR Expiration Date: 31-Dec-2016

Status: PAR for a Corrigendum to an existing IEEE Standard

Root Project: 1210-2004

1.1 Project Number: P1210-2004/Cor 1

1.2 Type of Document: Standard

1.3 Life Cycle: Full Use

2.1 Title: IEEE Standard Tests for Determining Compatibility of Cable-Pulling Lubricants With Wire and Cable - Corrigendum 1: Correction To Equations, Table 4 & Notes

3.1 Working Group: Compatibility of Cable Jackets and Pulling Compounds Working Group (PE/IC/A8W_WG)

Contact Information for Working Group Chair

Name: Albert Kong

Email Address: ankong@comcast.net

Phone: 925-459-8007

Contact Information for Working Group Vice-Chair

None

3.2 Sponsoring Society and Committee: IEEE Power and Energy Society/Insulated Conductors (PE/IC)

Contact Information for Sponsor Chair

Name: John Smith III

Email Address: jsmithiii@generalcable.com

Phone: 903-295-3415

Contact Information for Standards Representative

Name: John Merando

Email Address: jmerando@bechtel.com

Phone: 301-228-6249

4.1 Type of Ballot: Individual

4.2 Expected Date of submission of draft to the IEEE-SA for Initial Sponsor Ballot: 11/2012

4.3 Projected Completion Date for Submittal to RevCom: 02/2013

5.1 Approximate number of people expected to be actively involved in the development of this project: 10

5.2.a. Scope of the complete standard: The scope of this project will detail test methods and acceptable results for evaluating compatibility of cable pulling lubricants with cable coverings. This revision will be updated to include newer cable jackets included in ICEA/NEMA standards.

5.2.b. Scope of the Proposed changes: Correct the error in the Equation 1. Correct error in denominator of Equation 3. Correct misspelling in Table 4 Legend. Correct subscript for word "rho" in Note.

5.3 Is the completion of this standard dependent upon the completion of another standard: No

5.4 Purpose: The purpose of this project is to revise IEEE Std 1210-1996. Evaluation of pulling lubricants had been done on a non-standard basis. Standardization helps cable users as well as manufacturers by providing accepted evaluation methods and criteria. This revision will update to include newer cable jacket materials in ICEA/NEMA specifications.

5.5 Need for the Project: Correct the errors identified during re-affirmation ballot.

5.6 Stakeholders for the Standard: Utilities, Contractors, Wire and Cable Installers, Cable & Lubrication Manufacturers and Distributors

Intellectual Property

6.1.a. Is the Sponsor aware of any copyright permissions needed for this project?: No

6.1.b. Is the Sponsor aware of possible registration activity related to this project?: No

7.1 Are there other standards or projects with a similar scope?: No

7.2 Joint Development

Is it the intent to develop this document jointly with another organization?: No

8.1 Additional Explanatory Notes (Item Number and Explanation):
